

CONTENTS VOLUME 58

REVIEW ARTICLES

- J. Błaszowska, A. Wójcik: Current problems concerning Parasitology and Mycology with regard to diseases of the skin and its appendages111
- H. Długońska, M.M. Grzybowski: Mucosal vaccination – an old but still vital strategy.1
- M.M. Grzybowski, H. Długońska: Natural microbiota in viral and helminth infections. Addendum to: Personalized vaccination. II. The role of natural microbiota in a vaccine-induced immunity157
- D. Kiewra, E. Lonc: Epidemiological consequences of host specificity of ticks (Ixodida)181
- E. Lonc, G. Gościński: Professors Rudolf Weigl and Ludwik Hirsfeld – in the meanders of History189
- M. Nowak-Chmura, K. Siuda: Ticks of Poland. Review of contemporary issues and latest research125
- A. Okulewicz, K. Buńkowska: The reasons for helminth infections in hosts201
- T. Pojmańska, K. Niewiadomska: New trends in research on parasite host specificity: a survey of current parasitological literature57
- T. Szulżyk, R. Flisiak: Lyme borreliosis63

ORIGINAL PAPERS

- A. Balicka-Ramisz, A. Ramisz, S. Vovk, V. Snitynskyj: Prevalence of coccidia infection in goats in Western Pomerania (Poland) and West Ukraine region167
- A.W. Demiaszkiewicz, A.M. Pyziel, I. Kuligowska, J. Lachowicz, M.K. Krzysiak: Nematodes of the large intestine of the European bison of the Białowieża National Park9
- R. Haitlinger, K. Piksa: First record of *Spinturnix bechsteini* (Acari: Mesostigmata: Spinturnicidae) from Poland with remarks on the diagnostic value of some characters15
- J.N. Izdebska, S. Fryderyk: New for the fauna of Poland species of *Psorergates* spp. with the data of occurrence of mites from Psorergatidae family (Acari, Prostigmata) in native mammals19
- J.N. Izdebska, S. Fryderyk: *Demodex acutipipes* Bukva et Prestler, 1988 (Acari, Demodecidae), a rare parasite of red deer (*Cervus elaphus* L.)161
- J.N. Izdebska, L. Rolbiecki: Demodectic mites of the brown rat *Rattus norvegicus* (Berkenhout, 1769) (Rodentia, Muridae) with a new finding of *Demodex ratticola* Bukva, 1995 (Acari, Demodecidae)71
- J. Kowal, P. Nosal, Z. Bonczar, M. Wajdzik: Parasites of captive fallow deer (*Dama dama* L.) from southern Poland with special emphasis on *Ashworthius sidemi*23
- A.C. Majewska, P. Solarczyk, B. Moskwa, W. Cabaj, W. Jankowska, P. Nowosad: *Giardia* prevalence in wild cervids in Poland207
- S. Moqbil, P. Kurnatowski: Secretion of hydrolytic enzymes by fungal strains, isolated from patients with malignant tumors of head and neck, before, during and after radiotherapy27
- M.V. Orlova, A. Zapart: Interaction of ectoparasites in cohabitating colonies of pond bats *Myotis dasycneme* (Boie, 1825) and species of genus *Pipistrellus* from northern Poland211
- T. Pojmańska, R. Salamatina, T. Sulgostowska, D. Cielecka, A. Okulewicz, K. Niewiadomska, B. Grytner-Zięcina: The Polish collection of parasitic helminths (a report on realization of works concerning fusion of parasitic collections dispersed among different scientific institutions)75
- M. Skoracki, K. Kavetska, M. Oźmiński, B. Sikora: The morphology of juvenile stages of *Bubophilus aluconis* Nattress and Skoracki, 2009 (Acari: Syringophilidae) with a description of a male37
- A. Słodkiewicz-Kowalska, A.C. Majewska, E. Trzęsowska, Ł. Skrzypczak: Occurrence of *Encephalitozoon intestinalis* in the Red ruffed lemur (*Varecia rubra*) and the Ring-tailed lemur (*Lemur catta*) housed in the Poznan Zoological Garden, Poland49
- K. Szwabe, P. Kurnatowski: Comparative analysis of morphometric features of the eggs of selected alimentary tract parasites and of the plant pollens87

SHORT NOTES

- M.M. Grzybowski, H. Długońska: *Toxoplasma gondii* – an amazing parasite. A comment to the article of Koshy A.A. et al. „*Toxoplasma* co-opts host cells it does not invade”.217
- J. Pickarska, M. Kuczaj, M. Wereszczyńska, M. Gorczykowski, K. Janeczko, K. Płoneczka-Janeczko: Occurrence of tapeworms of the family Anoplocephalidae in herds of dairy cattle in Lesser Poland and in Lower Silesia, Poland97
- J. Templin, T. Napiórkowska, M. Szczepanik: An anomaly within the genital system in a female *Ascaris suum* Goeze173

CASE REPORTS

- U. Coupland, S. Dobosz, K. Zawadka, M. Marczyńska: Cystic echinococcosis in a child infected with HIV101

Ph.D. THESES

- M. Ligęza-Żuber: Mechanisms of *Galleria mellonella* cellular immune response after infection with entomopathogenic fungus *Conidiobolus coronatus*227
- A.M. Pyziel: Studies on eimerians (Apicomplexa: Eimeriidae) of wild ruminants105

CHRONICLE

- T. Sulgostowska, K. Niewiadomska: Associate Professor Leokadia Jarecka, PhD221
- A. Jaskółowska, G. Raczyńska-Witońska: Professor Jolanta Kwaśniewska – information on academic, teaching and organizational achievements connected with retirement223
